SYNOPSIS:

Set in Miami's trendy underbelly of ill-gotten wealth, "Women & Bullets" is a sexy, stylish, fast paced action-thriller with powerful notes of romance, betrayal, and redemption.

"CRASH" TIERNAY is a young man possessed with living on the edge. Kismet, like trouble, seems to follow him wherever he goes. Fresh from Special Forces after serving his country, he's back on the venomous streets of New York that fueled his adolescent rage. Broke, disillusioned, and anxious to leave his criminal past behind, he gladly accepts the invitation of childhood friends to hang out in South Beach, seduced by the lure of instant cash, sexy women, and a once in a lifetime score.

Upon arrival, reality far exceeds his wildest dreams; CRASH is introduced to a quality of life he never knew existed. Fun in the sun quickly sours when he find himself in the middle of the Everglades, surrounded by dangerous men questioning the loyalty of his friends. Crash reacts instinctively, promptly eliminating the bone of contention, and setting off a series of events from which there appears no escape.

Cuban billionaire RAUL ESPINOSA is at the epicenter of his trouble. A psychopath that masquerades as a legitimate businessman, he controls his empire of illegally amassed wealth by relying on a proven management style of torture, murder, and intimidation. RAUL leans on CRASH and his friends to do his killing, as a way to prove their loyalty, and secure any hope of staying alive.

Suddenly life is spinning out of control, CRASH finds himself right back in the very world he was trying desperately to escape.

The target; gorgeous supernova ZOE YOHANNES, an exotic Ethiopian beauty and world-class RINSER, quietly turning dirty diamonds into clean money for wealthy clients, and getting rich doing it. RAUL suspects her of stealing millions and wants her dead. While CRASH'S so-called friends plot to kill ZOE, they plan to kill him at the same time, never realizing RAUL has targeted them all for slaughter. CRASH pretends to go along with the scheme to execute ZOE, because he can't reveal they know each other. It's what he doesn't know that changes his life forever. Sometimes the brightest diamond has the darkest past.
